Section 4: Membership and Nominations

Contents

This section provides information about the Inland Empire HIV Planning Council's Open nominations process and attendance requirements. It supplements information provided in Article III of the Bylaws.

Purpose

The Inland Empire HIV Planning Council is required under Ryan White legislation to use an open nominations process for the recruitment and screening of Planning Council members. The purpose of this policy and process is to establish a membership process and composition that meet legislative requirements and HAB/DSS policies and enable the Council to meet its legislatively and locally defined responsibilities, and to ensure that the process is clear and transparent.

Policy

It is the policy of the Planning Council to specify, publicize, and follow clearly defined procedures for the recruitment, orientation, training, and retention of members and to ensure that the membership is representative of required service categories and reflective of the epidemic and of the geographic service areas of the Riverside/San Bernardino, CA Transitional Grant Area (TGA).

Planning Council membership must include the member categories needed to meet the representation requirements specified in the Ryan White legislation, as described in the Planning Council Bylaws. In addition, both the Council as a whole and the unaffiliated consumers must be reflective of the epidemic in the TGA.

Open Nominations Process

Recruitment and Outreach

Overview

1. The Council Development Committee coordinates an ~~annual~~-open nominations process based on Bylaws requirements that terms for Planning Council members are ~~for three years~~ ~~and~~ end December 31, with staggered terms so that approximately one-third of the membership terms end each year.
2. If the federally mandated and locally required membership categories are not currently filled or will become vacant or if the composition of the current membership does not reflect the demographics of the epidemic in the TGA, the Council Development Committee identifies the areas of needed representation and prepares to recommend the individuals for appointment to correct this lack of representation. The Committee determines recruitment needs for the annual cycle (including who will and will not seek reappointment) each year in

October and presents information on upcoming vacancies and needs to the Executive Committee and Planning Council in November to get its input and advice.

3. The Planning Council annual open nominations process is active year-round, but is especially active from August – October of each year to handle ~~annual nominations and renominations~~, as one-third of terms end, and to ensure required reflectiveness of the demographics of HIV/AIDS in the TGA. The Planning Council does recruitment and screening of nominations throughout the year to fill vacant membership categories, and continuously accepts and reviews applications from consumers who are interested in Planning Council membership in order to have a pool of qualified candidates. The nominees for ~~Planning Council the annual process membership~~ are recruited and screened by the Committee in October, and referred to the ~~Executive Committee and to the~~ full Council in November. The Planning Council votes whether or not to approve a slate of the nominees in November, and then sends the list of recommended nominees it to the Board of Supervisors for review and appointment by the Chair of the Board of Supervisors as CEO.

Recruitment

1. The Council Development Committee (CDC) recruits members for the Inland Empire HIV/AIDS Planning Council for the mandated membership categories.
2. The Council must ensure that at least one-third (33%) of its members are from the HIV infected or affected population and are unaffiliated – they are not staff members, consultants, or Board members of Part A-funded providers. The goal of the Council is to have HIV infected or affected people compose 50% of the total membership.
3. As required by the Ryan White legislation, the Council must ensure that the HIV infected or affected members and the total membership of the Planning Council reflect the epidemiology of the epidemic in the Riverside/San Bernardino, CA TGA, with particular consideration to disproportionately affected and historically underserved groups and subpopulations.
4. To guide the recruitment process, ~~Planning Council support staff~~ Planning Council Staff provides the Committee monthly current written reports on the status of the membership of the Planning Council, specifically on issues related to vacancies and reflectiveness as defined by HRSA-, which will also include Non-Members.
5. Staff works with the CDC on an ongoing basis to publicize vacancies on the Planning Council. Depending upon the vacancy, various targeted approaches are used, including but not limited to: press releases, advertisement in HIV publications, and presentations at community meetings and health fairs and community events.
6. Materials used in recruitment include, at a minimum, application forms and brochures.
7. Potential applicants are asked to Planning Council contact staff at (909) 388-0426 for more information, or access the website at www.iehpc.org. Staff sends the application and any relevant materials to the interested person, also inform the chair of ? and follows up with the contact within two weeks if no information is received.
8. The Committee provides monthly updates to the Planning Council on its recent and planned recruitment activities.

Comment [A1]: Maybe not we meet and have discussion monthly.

Such contact may be made by regular mail, overnight mail, fax, or e-mail, and includes a Renewal Form, which the Council member is expected to return to the CDC's assigned support staff by a specified deadline. Failure to do so may jeopardize a member's consideration for reappointment.
3. No later than the October CDC meeting, the CDC discusses and votes to recommend or decline to recommend a Council member's reappointment. The decision is made by a simple majority vote.
4. If the CDC recommends reappointment, the recommendation is forwarded to the ~~Executive Committee and then the~~ full Council along with other recommended candidates for the Council. The same process for review is followed as for other Council member nominees.

 - e. Minutes of all committees and subcommittees list the members who attended the meeting and those who were absent.
2. PC support staff provides the CDC with a Quarterly-monthly Attendance Report that includes a spreadsheet or similar list of members and meeting dates for the Planning Council and for each committee and subcommittee. The report indicates the date of each meeting or indicates when a meeting was not held, and provides the following information for each member and meeting for the calendar year to date:
 - a. PC members that attended the meeting in person
 - b. PC members that attended the meeting by teleconference or video conference,
 - c. PC members that did not attend but were on an approved Leave of Absence
 - d. PC members who did not attend the meeting and were not on Leave
3. The Council Development Committee reviews the Quarterly Attendance Report and identifies any member who is not meeting attendance requirements.
4. Based on this review, the CDC directs PC support staff to notify in writing any Planning Council member who is not meeting attendance requirements in the name of the Committee.
 - a. The member is given the option of improving attendance, taking a Leave of Absence, resigning, or being recommended to the CEO for termination on the basis of non-participation.

If unanimous approval is not obtained, the Chair or the Co-Chair adjourns the meeting regardless of whether or not there is a quorum.

6. During the period of the Leave of Absence, the Council member does not participate in Council activities, is not counted as a member for quorum purposes, and is treated like a member of the public if s/he attends a Council or committee meeting.

7. A Leave of Absence has no effect on a Council member's membership status or the end date of the member's term. However, a Leave of Absence will not be granted if the individual's term as a Council member would end before the proposed end of the Leave of Absence, since this would have the effect of extending the member's term.
8. If for any reason a Council member is not be able to return after a Leave of Absence, the CDC first requests that the member resign from the Council. If a resignation is not received, the CDC takes action to recommend termination of membership based on non-participation, as described in the Attendance section.
